*Double Patenting*

1. Claims 20-56 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-48 of U.S. Patent No. 6,095,985. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present application are obvious over the claims of the parent patent.
2. Claims 20-56 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-17 of U.S. Patent No. 5,778,882. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present application are obvious over the claims of the parent patent.

*Claim Rejections - 35 USC § 112*

3. Claims 20-56 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The subject matter added to the independent claims in the amendment submitted 5/8/06 does not appear to be adequately set forth in the specification as filed. The particulars of how the data logger is configured to initiate communication via the modem are not described.

*Claim Rejections - 35 USC § 102*

4. Claims 20-31,33,36,41-45,47-56 are rejected under 35 U.S.C. 102(b) as being anticipated by Dahlstrom et al.

See previous office action.

*Claim Rejections - 35 USC § 103*

5. Claims 32,34,35,37-40,46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dahlstrom et al in view of Carr.

See previous office action.

The remarks made by applicant have been considered, however the above rejections are still deemed to be proper. The modem of Dahlstrom is connected to a telephone line, which is considered to be a communication network. The added subject matter to the claims, being new matter, was not given weight in the 102 and 103 rejections.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3762

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
